2B Advice achieves ISO/IEC 27001:2013 Certification

BONN, Germany & BREZNO, Slovakia -- 18 May 2021 --

2B Advice, global provider of data protection services and technology, is proud to announce that we are ISO 27001:2013 certified for Information Security Management Systems (ISMS) which encompasses Development, IT administration, Hosting, Sales and Distribution of Regulatory, Data Protection -services and software.

Data Protection -services and software.

2B Advice customers trust us with their data and we strive to ensure our solutions are in line with international privacy and information security standards. That is why we are delighted to announce that 2B Advice has passed the ISO 27001 certification audit and are now ISO/IEC 27001 certified.

Certification of 2B Advice ISMS puts a priority on customer data protection through implemented controls.

“Thanks to the hard work of our team, our ISO 27001 accreditation demonstrates our commitment to keeping our global customers’ data secure,” said 2B Advice CEO Marcus Belke.

What is ISO 27001?

ISO 27001 is an information security standard published by the International Organization for Standardization (ISO) that sets the global standards for safety and security. ISO 27001 is part of the ISO family of standards which specifies an information security management system that is intended to bring information security under management control and gives specific requirements. 2B Advice was audited by external audit firm TÜV SÜD Management Service GmbH. Find 2B Advice in their certificate client [directory](#).

Why ISO 27001 certification?

The ISMS certification represents a certainty that the employees, processes and IT systems utilized by 2B Advice conforms with the standard risk management processes set forth by ISO.
